

# Triangle Chapter Newsletter

Car of The Month

**October 2021**

**Issue 8**

## News Summary

*(Story list here. See the stories in the matching sections below.)*

1. **Events Calendar** – Next Triangle Meeting October 14, 2021
2. **President's Message** - See Mike Hess' October message.
3. **Editor's Observations and Notes** - Denny's thoughts and updates.
4. **Meeting Notes** – See notes from September 9, 2021
5. **Hayes-Barton Centennial Invite** - Riley Reiner message requesting Take-A-Part T help.
6. **Triangle Chapter Car List**
7. **Marv Gage finds antique cars at his new home.**
8. **Wake Forest Cars for Kids Show**
9. **Cars and Coffee at Morrisville**
10. **AACA Southern Fall Nationals** by Brian Wingler
11. **Zoe finds a Take Apart T at McPherson College.**
12. **A Classic Car Cruise Opportunity**
13. **Reiner Family Model-A Progress Update.**
14. **NC Region Fall Meet at Spencer September 18, 2021**
15. **Model T for Sale.**
16. **Triangle Chapter Officers - 2021.**
17. **Publication and Chapter Information.**
18. **NC Region Event Schedule.**

## 1. Events Calendar

Many fall car activities are opening as groups try to get a car show planned this year. We hope you have gotten your vaccinations so that we can get back to near normal for these events. Listed in this section are some of the fall events planned.

## Triangle 2021 Events Calendar

### October 14, 2021 Triangle Chapter Meeting

**Event:** General Meeting of the Triangle Chapter of AACA

**Meeting Date:** October 14, 2021

**Meeting Time:**

5:45pm to 6:45pm: Dinner and social time

6:45pm to 7:15pm: Business meeting

7:15pm to 8:00pm: Presentation including Q & A

8:00pm to 8:15pm: General Meeting wrap-up and adjournment

**Location:** RallyPoint Sport Grill (private room) 837 Bass Pro Lane, Cary, NC 27513, Bass Pro Shopping Center. Note: We anticipate having to limit in-person participation to the first 25 members that sign up for the dinner meeting. To accommodate additional members, the meeting will also be aired online through our usual Zoom link:

<https://us04web.zoom.us/j/3547838874> starting at 6:30pm (no password required).

**Presentation:** At the October 12, 2021 membership meeting of the Triangle Chapter, Bob Gault, long time member of the Triangle Chapter, will share with us his recent experiences servicing Ford's Mustang Mach-E. Bob, as Service Manager at Crossroads Ford in Apex has had responsibility for diagnosing and repairing this new-for-2021 model. He will discuss, complete with photos, the removal, disassembly, cell replacement, conditioning and reinstallation of the complex and sizable battery that fuels this all-electric SUV. Please join us for this interesting and informative presentation to be held at the Chapter's usual RallyPoint location. The meeting will also be available via Zoom link at <https://us04web.zoom.us/j/3547838874> starting at 6:30pm (no password required)..

## NC Region 2021 Calendar Events Planned

Below are the NC Region events which have been rescheduled.

**Date Event/Location**

- October 23 - Cape Fear Chapter - Wilmington, NC

- October 30 – NC Region Cruise-In Hosted by the Old Salem Chapter.

See the flyer in your NC Region September/October News or online ([Click Here](#))

- November 13 - Morehead City Chapter Show – Morehead City NC

See the last section of this Newsletter for a **complete list of NC Region 2021 activities.**

## AACA National Events Calendar

The AACA National Shows are being rescheduled and replanned. See the AACA National Website at: <https://aaca.org/> and your AACA National magazine for details, schedule changes and Registration Forms. Below are some nearby AACA events.

**Date Event/Location**

October 11-16 Southeastern Divisional Tour/Mt. Airy, NC

## 2. President's Message

### By Mike Hess

It looks like Hershey is just about back to normal. I plan to attend and judge again. I decided that I would go every two or three years and judge. This year will be my second time since moving to North Carolina and hopefully I will judge class 36, factory high performance again.

I don't know if others are finding a restoration parts shortage due to the pandemic, but I am experiencing it. I ordered a correct ballast resistor for my GTX August 2...still on back order. Bob Gault is helping me lug concentric balance my F70x14 Goodyear Custom Wide Tread Polyglas tires I bought last year. One of the tires will not balance. I checked with Universal Vintage Tire, and they told me they may have them available to ship end of year or early next year. Lucas Tire told me that there are no tires in that size in the country and they have no ETA when production will resume. And I see there is a major price increase if they did have them.

I want to thank Andrea Irby for continuing to be the Admin for the Triangle Chapter Facebook page. She has been posting a lot of activity this year. I encourage everyone to get on Facebook and check it out. It has close to 400 followers. Also check out the NC Region Public Group Facebook page. You see information from not only our chapter but the other NC region chapters. It has 207 members. And finally, there is the AACA National Public Group Facebook page with over 20,000 members.

Cars and Coffee Morrisville has been a lot of fun. I have heard it is the biggest monthly car event in North Carolina. It is mostly late model cars but that makes our old cars that more special. People do look at them and ask questions. I think more old cars will turn out if we keep making a presence.

The NC Region board meeting was held at the Spencer show. Items of note: 907 members, the annual membership meeting will be at the Ramada Inn in Raleigh on January 14 & 15, 2022. One final note. The Region Spring 2022 meet has been awarded to the New River Chapter of Jacksonville. The NC Region 2022 Events Calendar has the meet scheduled for May 7. Therefore, the Triangle Chapter meet will be planned for April 30.

Enjoy the cool Fall weather.

### 3. Editor's Observations and Notes

#### By Denny Oestreich

The summer of 2021 slipped by while I wasn't watching. The fall car shows are now filling the calendar. I hope you get to a few of the shows. COVID is still a concern for many of us but some events do not appear to have any COVID or at least no one is wearing a mask.

Brian Wingler attended the AACA Southeastern Fall Nationals in Greenville, SC on September 11, 2021. The AACA Website indicates there were 39 HPOF vehicles, 17 DPC vehicles, and 118 judged vehicles at this event. Brian was the only Triangle member to attend. The event was on the same date as the Fall Auto Fair at the Charlotte Speedway sponsored by the Hornets Nest Region.

Thanks again this month to Riley Reiner and Marv Gage for the articles they provided in this issue. Riley provided an update on the improvements to the Model A he is working on with his grandson. Marv has found some antique car activity at his new home in Georgia. Check out their stories in this issue.

Look over the upcoming events for the Triangle Chapter, the NC Region, and AACA National. There are three more NC Region Chapter Car Shows and an NC Region Cruise-in before year end. Remember to RSVP to attend our next regular meeting or watch on Zoom October 14, 2021.

Dan Fuccella has been keeping up Zoe Carmichael at McPherson College where she is studying for a BS Degree in Automobile Restoration. She sent a picture and few words about the McPherson College Take Apart T for this issue.

I participated in the Hornets Nest Fall Charlotte Autofair on September 9-11. I built a huge 7' by 16' X 2' deep box atop my car trailer, loaded it with many '57 and other parts and took them to the Autofair to sell. The show was smaller because their fall show is smaller, many people were concerned about Covid and many were disappointed that the Spring show was canceled without rebates. After three days at Charlotte I learned more about selling old car parts. I learned that the shiny and clean parts sell best, old car people only want to pay 25% of my assessed value, and if you don't sell it you have to bring it home put and it away again. This year all

vendors were in the infield year (no green or red fields). About 70 percent of vendor spaces were occupied. Most buyers came on Thursday and Friday. Saturday was mostly for sightseers. I did ok, but not well enough to be encouraged to go back in the spring. However, I only took about half of what I needed to sell and brought back a third of what I took. I need to think about what to do next. Anybody need a '57 Chevy fender, with "patina"?

My other antique car adventure this past month was to go to the APEX cars and coffee. There were only a few (about 20) mostly new corvettes attending. However, I did get a good look at a running 1957 Corvette with a fuel injection engine. The car had been exported to Japan and brought back.

The engine for my White 57 was completed by the machine shop. They replaced the washed-out rings and rod bearings. I now have it in my garage beside the car. The challenge is to get it back into the car. I counted the pieces to put it back together, and I need to successfully assemble 227 nuts, bolts and parts and get them all in the right place. With various other distractions, like a transmission oil line coming off my regular 2008 Chevrolet, I am making slow progress. I may not be able to use the White 57 to get our Thanksgiving turkey. Maybe I can order it from Amazon.

I have committed to editing the Triangle Chapter newsletter thru December of 2021. After this issue I will be doing only two more issues, November and December. Here is an opportunity for someone to take over the Editor role. I know the Triangle Chapter will be grateful.

## **4. Triangle Chapter Meeting Notes 9-9-2021**

**By Dean Tryon**

- I. The Chapter meeting was held in person at Rally Point and via ZOOM.
- II. Reports – Ken Powell reports the treasury is good and we have 84 member families.
- III. Old Business
  - a. Andrea Irby reported on a very successful picnic at her house in Aug. with about 50 attending.
- IV. New Business
  - a) The newsletter editor job is still open. Denny will do it thru this year but is stopping after many years. Thanks Denny. As you have seen, the editor writes a few articles, but many are contributed by members. Remember, we pay \$100/issue for your work. We also need someone to do the monthly input for the NC Region newsletter.
  - b) 2022 Officers – Jim Gill chairs the committee to select a slate of officers for next year. If you are interested, contact Jim at 919-593-5860.
  - c) Cars & Coffee – several members reported on the huge (2500 cars) cruise in earlier this month. Seven AACA cars were there. Check out the You Tube video. His show attracts all kinds of cars from basic to high end.
  - d) 2022 Chapter car show – There are 2 possibilities under review. Oak View Historic County Park would like to have us back, possibly the last week in April. Wake Tech is another possibility. Discussion centered on whether we are due for a change in format. Invite other clubs? Trophies needed? Do our own cruise-in? Other ideas invited.
  - e) Discussion on whether we should have new club hats, shirts, or car banners. No decision.
  - f) Efland Car display requested on Sat Oct 2 in Hillsborough. See emails for details. Dan Fuccella is contact (919-349-5911).
  - g) Take-A-Part T demo planned for Oct 30 for the 100<sup>th</sup> anniversary of the Hayes Barton community at 5 Points in Raleigh on Fairview Rd. Two shows planned at 10:30 & 1:30, plus plenty of room for car displays at the Wells Fargo Bank. Riley Reiner is contact (919-816-6903) if you can help or display.
  - h) Nov 13 – Our annual display at Chick-Fil-A on Capital Blvd. Jack Agayoff coordinating (919-846-8570)
  - i) Dec 5 – Our annual Christmas party
  - j) Zoe Carmichael has moved to Kansas and has started her program in their Auto Restoration bachelor's degree program. She participated by ZOOM with us.
  - k) Riley made a plaque thanking Marv Gage for many years of service in our chapter. Marv and Jeanette have moved to Suwanee GA, near Atlanta.
  - l) Program – Rob VanDewoestine discussed the history of the Italian made Qvale Magusta and details about his current 2001 coupe. This is a low volume vehicle with a modern Ford engine and transmission. Thanks Rob.
  - m) Future programs – Dan Fuccella reported on the next 3 meetings:
    - October 14 - Bob Gault will be describing Mach E Ford EV servicing.
    - November 11 - Zoe Carmichael will be discussing her early experiences as a student in the Automotive Restoration program at McPherson College in KS.
    - December 5 - Kimberly Hess will be describing her quilting work at the Holiday party.

## 5. Cars and Coffee Morrisville

**By Mike Hess**

We plan to attend the Morrisville Cars and Coffee on the first Saturday each month from 8am to 11am. This monthly event held on the first Saturday attracts well over 1500 vehicles. The address is 5425 Page Rd., Durham. We meet at the Mez Mexican restaurant at 5410 Page Rd. (On the corner of Page Rd. and Slater Rd.) Get there by at least 7am to assure a good spot to park together. There is a Starbucks next door for those in need of their morning coffee. **We leave promptly at 7am as a group to drive down the street to the C&C.** If you would like to attend, contact Mike Hess at [mlhess68@yahoo.com](mailto:mlhess68@yahoo.com) or 916-201-3973. This is a good venue to promote our chapter.

## 6. Hayes Barton Raleigh Centennial Celebration Invite

**By Riley Reiner**

**OUR LAST DISPLAY WITH THE TAKE APART T FOR 2021, OCTOBER 30, 2021.**

The article in the last newsletter was a great help in filling the ranks of our team. We could use several more team members to have a complete team. At the present time we have three cars for the display: Brian Wingler, Dave Norris and Joe Parsons. We would like to have at least ten. Please contact me if you can help with the Take Apart or the car display. My email is [rreiner@earthlink.net](mailto:rreiner@earthlink.net); cell is 919-816-6903; home is 919-554-1158.

The schedule is as follows: arrive by 9:15 to park the cars, unload the Take Apart, test start it and move it into position to be taken apart about 10:15. The first show will be at 10:30 with pictures to follow. The second show is at 1:30 with a test start at 1:00 with disassembly about 1:15. If possible, anyone displaying a car or on the assembly team should wear their club shirt. Shirts are available from Ken Powell, our new treasurer. If you are on the Take Apart Team, please wear your white Model T cap. If you do not have one, please contact me. The display should end around 2:15 after the Model T is loaded.

The car display will be in the parking lot of the Wells Fargo Bank, 2016 Fairview Road, Raleigh 27608. You can enter the bank parking from Glenwood Ave. eastbound only. Look for their sign just before you get to Fivepoints. Fairview Road will be closed off at Fivepoints but we can open the gate one block west if you come in the back way through the Hayes Barton Community.

The club will be compensated for our treasury. The weather should be nice. Limited trailer parking is available please contact me.

Riley

## 7. Triangle Chapter Car List

Dean Tryon is compiling the list of antique vehicles owned by Triangle Chapter members. This has involved updating a previous list from many years ago and contacting members to verify the list. This list will be useful for referring other car owners with questions to an expert or at least a fellow owner. If you have not already updated your car list information with Dean, please contact him. The list will soon be ready and shared. So, if you do not want one or more of your vehicles on the list, please contact Dean Tryon at 919-441-1271 or email Dean at [DGTryon2516@gmail.com](mailto:DGTryon2516@gmail.com). We have great participation so far with over 160 listed. Thanks.

## 8. A note from Marv and Jeanette Gage

### By Marv Gage

We have settled into our new home in the Independent Senior Living Facility and are very happy with the apartment and the total complex. We want to thank everyone for the Service Award and the card from the Club picnic. We are going to keep our Triangle membership so we can keep up with the Club activities and its members.

When we arrived in the complex, there was an older Bentley in the parking lot. I had seen this car on previous visits and had to find out who owned it and something about the car. I eventually found the owner. He told me the car was a 1961 Bentley 4 door sedan. It had 86,000 miles and he had purchased the car new in 1961. He could no longer drive the car and his son wanted him to sell the car, but he couldn't part with it yet. The car hadn't been driven in over a year. Pretty car in very good shape. Jeannette was concerned that I was looking at the car, but I assured her I was not purchasing any cars.

About a week later I was in the complex library. Besides the normal library books, they have about 35 various magazines available. I noticed several car magazines including a Hemmings. I asked the Librarian why they had a Hemmings since that is not a magazine you would normally find in a small library. She told me they would subscribe to a magazine if someone requested it and she said someone in the complex was restoring an older car. It took me about a week, and I finally found Kevin, a resident. He told me he had a 1938 Wander W25K and

1938 Wanderer (A Similar Vehicle)

it was in a garage just a couple of miles from the complex. His father had bought the car in 1974 from a salvage yard in southern California. It had been sitting in the open for 10 years. I was very rusty and was missing several major parts and a lot of small items. Over the years he accumulated various parts. He borrowed an intake manifold from a restored car and had a casting made. They found a supercharger and a carb in Europe, and the restoration started in Georgia about 8 years ago. Kevin has Parkinsons and needs a walker so he cannot do much of the restoration himself.

I had never heard of a Wanderer. It turns out it is a German car. Like so many of the auto manufactures, the company started building bicycles in 1885, motorcycles in

1902 and cars in 1904. In 1932, Wanderer, Audi, Horch and DKW joined together in a company called Auto Union and the used 4 circles representing the 4 companies in their emblem. In 1938 there were 37 cars sold. The engine was designed by Porsche and was an inline 6-cylinder supercharged engine using a Solex carb and a Roots Supercharger. All the cars they built in 1938 were hand-built roadsters. The company built two cars for their factory racing team and Kevin's is one of those cars. He said he would take me over to see the car at some time and I am looking forward to seeing it.

It goes to show you it is a small world, and you never know when you will find an interesting old car.

## 9. Wake Forest Kars for Kids Show 9-11-2021

By Dean Tryon

### Wake Forest Car Show – Sept 11, 2021 “Kars for Kids”

This charity car show was the first annual (hopefully) show with the recipient as the Wake Forest Optimist Club and their programs supporting children. It was organized by the same group who has done the annual Downtown Wake Forest show in June each year. The location was the parking lot of the strip mall at the corner of US#1 (Capital Blvd) and business #98.

Over 163 cars were present, and the unique format proved to be highly successful. As cars arrived, they paid \$20 and were given the registration sheet and a pen. After they parked sequentially, they filled out the registration sheet, brought it to the registration table, and received a dash plaque and a ballot for door prizes. The registration form was unique. It was a 2-page sheet with the second page a carbonless copy. The owner retained the first white sheet as their window card and the second yellow sheet was retained by the show for judging, awards, etc. It also recorded their club affiliation, and an award was won by the Piedmont Chevy Club with the most club cars present.

The Wake Forest Fire Dept brought a pumper truck and the TDL (tractor drawn ladder truck – what we used to call the hook and ladder truck) with a large flag for the national anthem. They also brought their recently restored (and its first car show) 1942 Chevrolet fire truck.

This was a highly successful show with a small army of volunteers and many sponsors to make it happen.

Over the hoods

Les; "Whose car is leaking fluid?"  
Riley; "Probably one of Denny's Chevrolets."

Use the Wide angle for that car

Henry Burgwyn is presented an award

## 10. AACA Southeastern Fall Nationals

**By Brian Wingler**

The South Carolina Region AACA hosted the 2021 Southeastern Fall Nationals at the Benson Campus of Greenville Technical College in Taylors, SC September 9-11, 2021. Besides the business meetings, on Friday a tour of the local BMW plant, a judge's school, and a catered BBQ dinner was available. The car show took place on Saturday the 11th. That being the 20<sup>th</sup> anniversary of the 09/11 terrorist attack on the US, the Region honored First Responders as part of the gathering.

Approximately 200 vehicles were registered for the show and with the very accommodating weather probably most of them were there. Some of the highlights for me were the 1911 Thomas Flyer and the 1934 Packard V12. There was also the 1941 Chevrolet Fire Truck restored by the members of the local Greer, SC fire department. This truck was part of their fleet from new, sold, and eventually donated back to the department. There was a 1920 Anderson, made in Anderson, SC with the radiator badge which proclaimed: "Anderson, A Little Higher In Price, But Made in Dixie".

## 11. Zoe's Update from McPherson College

By Dan Fuccella

This month Zoe sent the photo below. A few of the McPherson students are going to Rhode Island this month with the college's Take Apart T. She got to sit in on their practice, and they said she should join the team next year! The team is getting better each time. Their record is 7 minutes 30 seconds. Looks strikingly familiar to our situation. Perhaps we should take our T to Rhode Island next year and enter in the "Senior" division where they use an hourglass rather than a stopwatch to measure assembly times. Do you recognize the parts?

## 12. A Classic Car Cruise Opportunity

Jack Agayoff received this flyer about a Cruise to Myrtle Beach that looks interesting. If you would like to join Jack on this cruise, contact him at: 919-846-8570. Perhaps with enough interest a group can get together and go.

# TIME FOR MORE FUN IN THE SUN

*and getting there is half the fun!*

**NOVEMBER 4, 5 AND 6**

Join Uncle Benny as he leads a classic, muscle car and truck convoy down the back roads to beautiful North Myrtle Beach, SC. Most folks will meet and start out on the caravan at the Rest Area on 220 South from Ashboro, NC. Our first stop will be Laurinburg, NC where we will be joined by others coming from Charlotte, Concord, Burlington, Raleigh and Durham. We will all meet at the Golden Corral for your choice of brunch or lunch. Some of you may already be at the beach and have lunch with Carol. Upon arrival, you'll spend 3 days of Fun in the Sun at the Ocean Drive Beach & Golf in NMB. There you will have ample opportunity to show off your vehicles, take in some November Sun and hang out with new and old friends. The parking lot at the Resort will have 2 Security Guards from 6pm to 6am, Thurs, Fri & Sat. Your package will include a goody bag filled with a sweatshirt for each cruiser, coozies, pens, various coupons and much, much more. Friday morning, cruise to Capt. Archie's and a special lunch menu. Friday night a Meet & Greet Party at the Spanish Galleon just for our Cruisers. Saturday morning parking on Main St at NMB -Main St will be closed and only cruisers and their vehicles will be allowed to park. Sat. night we will again be at the Spanish Galleon for our wrap up "Celebration of Friends" party. DJ Chad Sain will be hosting both Friday & Saturday nights. **DON'T FORGET OUR SILENT AUCTION, with ALL PROCEEDS GOING TO THE SHRINER'S CHILDRENS HOSPITAL.**

## REGISTRATION - PLEASE PRINT CLEARLY

### 13. MORE PROGRESS ON THE REINERS' MODEL A

#### By Riley Reiner

The week of September 22nd, has seen more items completed on the '30 coupe. Our grandkids are on school track-out so I have had some help.

Colin finished the rebuild on the shift tower and lever. This is a hard job which can be dangerous if you are not careful. Colin did most of the work under my supervision. The tension on the gear shift lever is maintained by a long spring that must be compressed by 50%. I have the compression tool but if it is not installed correctly, the person working on the unit can be hit in the face or it can hit the ceiling and stick in the sheetrock. All went well and the unit is ready to go back onto the transmission. The old shift lever was very worn and needed plating.

We had the radiator boiled out and flow tested at North Raleigh Automotive and Radiator on Atlantic Springs Rd. (It was behind Cosco but moved in 2019). Woody Daniel does excellent work. I also received a good recommendation from Pat Gaglione on a shop in Henderson which I am going to visit for future reference. Radiator shops are getting scarce.

This week, we are planning to work on the '25 T and do some minor upgrades for Hershey. After the '19 show, I requested a critique of the judging sheet which I am using to decide what is reasonable to do without getting into a full repaint. We are leaving for Hershey on Tuesday, October 5th. Our flea market space is listed under Stu Allen in the north Chocolate field row C40, #45-50. Look for light post # 36. Stop in and rest; we'll be glad to see you.

On another note, the Wake Forest Kiwanis Club sponsored a fund raiser to support the Boys and Girls Club of Wake Forest on September 11th. It was held on the parking lot of the old NC 98 and US1 shopping center. We took the '15 touring; George Ashley had his '26 T Tudor and Les and Dean had three cars on display: '29 Buick, '47 Pontiac Woody and '59 Buick. It was a beautiful day and attracted around 160 cars. Since it was an open show, the cars

ranged from 1915 to 2021. A good turnout of Corvettes and cars of the '50's and '60's. The best idea I have seen lately was the distribution of door prizes. Upon registering, you received a ticket to drop in the box. You filled in your name and cell phone number. As they drew the tickets to win a door prize throughout the day, they would send you a text message to come and claim your prize. Very efficient and saved time when trophies were being distributed. The location was much better than the display in downtown Wake Forest on White Street. At noon, the Wake Forest Fire Dept, raised their big ladder truck and unfurled the American Flag while a lady with a beautiful voice sang the Star Spangled Banner in remembrance of 9-11.

Colin entertained a number of people with cranking demonstrations with the '15 T. If he had three or four people looking at the car, he would ask them if they wanted to see how pre-starter cars got started. He set the controls, primed it several times, turned the switch on and several times it started on compression. Each show he attracted ten or more people who always gave a round of applause. He did three or four demonstrations and explained the process each time. We may have our next Take Apart T cranker! Riley

## 14. NC Region Fall Meet in Spencer September 18, 2021

By Denny Oestreich

**(Here is the Fall Meet Story as told to me by Jack Harris.)**

The Furnitureland Chapter hosted the NC Region Fall Meet again this year at the Transportation Museum in Spencer, NC. The weather was good for a car show. There were 78 cars entered and 71 cars judged. The trophies kept the theme of railroad cars with a Southern Railway Hopper Car featured. The dash plaque on the trophy featured a 1963 Pontiac Catalina owned by Bill and Cathy Sykes. During the morning registration and parking the NC Region Board of Directors held their meeting in a room in the back shop.

The transportation Museum offered bus rides down the street to the working Auto Maintenance Shop which the Museum acquired and restored for working on the vehicles which are part of the museum's collection. The shop is now outfitted with lifts and tools and is displaying some vehicles and providing space for auto maintenance.

A highlight of the show was the display of a quilt assembled of squares submitted by the NC Region Chapters in 1992 and raffled off to benefit the NC Region. The winners of the quilt raffle, the McMillans of Roxboro, kept it all these years hoping it could be displayed at the Transportation Museum. When the McMillans passed away their daughter contacted Jack Harris and asked if the Region would be interested in the quilt. Jack accepted and arranged for it to be displayed at the Fall Show and will also include it in the NC Region display cases at the Transportation Museum.

When the quilt was assembled each NC Region Chapter was contacted to prepare a quilt square which was then assembled into the quilt that was raffled. Each Chapter was asked to design a square and place a star representing their location on the map. The chapters also donated \$4.25 for material to assemble the quilt. Jack Harris has asked if you can recall any history of preparing the quilt or your chapters square to contact him at: **336-888-8211**.

Below are few pictures of from the show taken by Bill Cox.

## 15. Cars For Sale

Ron Petty is listing his 1923 Model T for sale. This is a professionally restored vehicle. First place AACA Grand National winner. It has an electric starter, complete tool kit and toolbox, rebuilt engine and transmission. The car has always been trailered. It also comes with a car cover. Asking \$20,000. Call 919-675-3501. Email [woodsview@embarqmail.com](mailto:woodsview@embarqmail.com).

Former AACA Triangle chapter member Frank Held has his Ford Roaster for sale. The car is totally stock except Hydraulic brakes have been added. It's located in Beaufort NC. Asking \$24,000 or best offer. Contact Frank's son Matt at 252-342-0405 or Email at [sailfishbite@hotmail.com](mailto:sailfishbite@hotmail.com) for details.
