1. Events Calendar

Here are the upcoming events to plan on your calendar. The Triangle Chapter board will plan our events in the next few weeks.

Triangle 2021 Events Calendar

1. General Meeting of the Triangle Chapter of AACA

Meeting Date: January 13, 2022

Meeting Times:

5:45pm to 6:45pm: Dinner and social time

6:45pm to 7:15pm: Business meeting

7:15pm to 8:00pm: Presentation including Q & A

8:00pm to 8:15pm: General Meeting wrap-up and adjournment

Location: RallyPoint Sport Grill (private room) 837 Bass Pro Lane, Cary, NC 27513, Bass Pro Shopping Center. Note: We anticipate having to limit in-person participation to the first 25 members that sign up for the dinner meeting. To accommodate additional members, the meeting will also be aired online through our usual Zoom link:

<https://us04web.zoom.us/j/3547838874> starting at 6:30pm (no password required).

Presentation: TBA

NC Region 2021 Calendar Events Planned

- **NC Region Membership Meeting**

Meeting Date: January 14-15, 2022

This is the annual general membership meeting with a Judging school, Continuing Judges Education sessions, guest speakers, lunch opportunities with fellow members, the annual business meeting and election of officers. To Register for this event please complete the form and submit the \$15 fee.

Location: The meeting will be held at the Ramada Inn on Blue Ridge Road in Raleigh.

You really should attend.

To see the Registration form, go to:

<http://ncregionaaca.com/triangle/images/PDF/2022memmeet.pdf>

- **2022 NC Region Events and activities.**

See the last section of this Newsletter for a complete list.

AACA National Events Calendar

The 2022 AACA National events are listed on the AACA Website at:

https://aaca.org/Meets/aaca_calendar.html

2. President's Message

By Mike Hess

I recall saying "Let's have some fun in twenty twenty-one" when I wrote the Presidents Corner message last year at this time. We did have some fun, retirement home cruise-ins, cars and coffee cruise-ins, club picnic, take-apart-t demo, Chick-fil-A display and ending with the annual Holiday party. We did all this with the cloud of COVID over our heads. We held our monthly meetings with a combination of ZOOM and in person participation. Considering the situation, I think we did pretty good. We can now look towards 2022 in an effort to make things "more normal" and better. The board plans to meet in mid-January to make plans for the new year. Contact any board member if you have some new ideas for a club event or activity. One activity that will take high priority is the annual Triangle Chapter car show. The show date is April 30. Mark your calendar and begin to think what you will do to help with the show.

The officers for the coming year have been affirmed. Basically, most everyone will serve another year in their respective positions. Bob Gault is stepping down as a board director and Andrea Irby will fill the position. I want to thank Bob for his service and welcome Andrea to the board. I also want to thank Denny Oestreich for his dedicated effort producing the newsletter. As you know Denny is stepping down as Newsletter Editor at the end of the year. But there is good news to report about his replacement that I will let Denny provide the introduction and details.

In between working on my next black powder rifle, a Tennessee/Western Carolina Mountain flintlock, I have begun work on my electrical problem with the GTX. Problem: Left front turn signal does not work and when the headlights are on, both left and right turn signal indicators in the dash are lit up. First thing everybody says is "probably a bad ground somewhere". What I found: The front turn signal metal housings are designed to be grounded to the front bumper. The light bulb socket is crimped to the housing. I found no continuity between the housing and the socket on the left side. Must be hidden rust inside the crimp. The fix: Drill a small hole into the housing by the crimped-on socket. Clean the area and install a small flat-head screw so the screw will make contact with the housing and socket. Fixed! So now what I thought would be hard was easy. The hard part will be to pull the dash apart and get the gage cluster out so I can replace the green lenses for the turn indicators with have bleached out to white. Oh, and the dash dome light switch does not work.

3. Editor's Observations and Notes

By Denny Oestreich

1. On November 11-12 I attended the AACA Special Western National Meet in Phoenix, AZ. See my story about judging the AACA National Car show in section 9. I also visited my brother in Phoenix. We had not seen each other for 5 years so it was great to catch up in the warm Arizona sun. The weather in Arizona is terrific this time of year, with temperatures of 80 in the daytime and 60 at night. Air Travel was interesting as all planes are full, shoulder to shoulder, and most people have huge carry-on bags. There are not as many Covid restrictions in Arizona which seemed a little scary in large gatherings. Hopefully you were able to attend one of the Triangle Chapters last three events of the year, the last Chapter meeting on November 11, the Chick Fil-A Display on November 13, or the Holiday Party on December 5. See the stories in this newsletter.
3. Thanks to Les Tryon for the Chick Fil-A Display pictures which are in this month's newsletter. Zoe Carmichael's presentation about her McPherson College experience which she gave at the November meeting is on our website with a link in this newsletter. Be sure to read the minutes from last meeting that were recorded by Dean Tryon.
4. While I was on vacation I missed two important events that I have attended for the past several years. The Chick Fil-A Display and the NC Region Cruise-in. I got an update about the Chick Fil-A Display from Jack Agayoff and Jim Gill. I was able to contact Ruth Ann Ronchetti who organized the NC Cruise-in event and find pictures on the Old Salem Facebook page. Have a look at the Cruise-in pictures at: <https://www.facebook.com/Old.Salem.AACA/photos/pcb.4424436617593175/4424395547597282/>
5. We have identified a new Triangle Chapter Newsletter editor. Triangle Chapter member Randy Robertson has stepped forward to take over this responsibility and will be preparing the January Newsletter. This will be my last newsletter. Thanks to everyone who has contributed articles and pictures over the years I have been editor. Please continue our newsletter tradition and support Randy

with by contributing your stories and pictures. You can reach Randy through his Email at: rnewr2017@gmail.com.

6. I am still working on solving problems with my white 57 4-Door Chevrolet. The engine is now rebuilt and reinstalled in the car. I am now struggling with exhaust and carburetor problems and a strange mechanical noise. The mechanical fuel pump seems to have too much pressure for the carburetors which has caused a flooded engine, very wet intake manifold, carboned plugs and excessive black exhaust smoke. I have tried many fixes including a second new carburetor and a fuel pressure regulator. If my carburetor bad luck continues to go poorly, I may soon be blamed for a gas shortage.

4. Triangle Meeting Notes 11/11/2021

By Dean Tryon

Action Items -- These items need your response if you are interested. More details in the newsletter.

1. Chick Fil A display – 11/13. Capital Blvd near Millbrook. Contact **Jack Agayoff** 919-846-8570
2. Christmas Party – 12/5 – contact **Jean Soehnlein**, moosemail@bellsouth.net, 919-906-1771 if you plan to attend and send your check in advance to **Ken Powell**, 4513 Wood Valley Dr, Raleigh, 27613 for \$15 each.
3. Chapter dues due 1/1/22 – Send check to **Ken Powell**, 4513 Wood Valley Dr, Raleigh, 27613, \$70 covers National, NC Region and Chapter dues.
4. Meeting location suggestions – we need everyone to offer suggestions on places we can meet. It needs to hold 35 people minimum, good food at reasonable prices, central location and have a TV for presentations. See more in #7 below.
5. Club shirts and hats – our supply is low so Ken Powell needs to know if there is a need to order more. (919-676-9461).

Meeting Agenda Items:

1. The meeting was attended by 5 in person and 20-25 on ZOOM including several friends and family of Zoe, our speaker.
2. Membership is at 87 and the treasury is at \$2762 (before dues renewals)
3. Newsletter – the December issue is the last issue to be done by Denny Oestreich as we have been discussing for a long time. He has done an outstanding job over these many years but it is time to pass on this opportunity to others. Please – if you have an interest, let Denny know (919-846-8163). It pays \$100/issue but does not need to be the same format.
4. Election of officers – Jim Gill reported that all the current officers have agreed to serve next year also. A motion was made to accept and was approved. Thanks to Mike Hess, Dan Fuccella, Ken Powell, George Ashley, Chet Butcher, Bob Gault, John DiPietro, Tom Pruett and Brian Wingler.
5. Our 2022 spring show will be April 30 at a location TBD. Wake Tech and Brier Creek are possibilities. Other suggestions welcome and if you would like to work on the committee, let Mike Hess know (916-201-973).
6. Christmas Party – 12/5. Jean Soehnlein has the party all set with some help from Les Tryon (see the flyer sent out to all members and attached to this email). It describes the menu, gift exchange, program by Kimberly Hess and Toys for Tots gifts.
7. Future meetings – We recognize that Rally Point is not a favorite with many members. Subsequently, Chet Butcher agreed to head a group to locate and evaluate alternatives. The hope is to get back to in-person meetings and eliminate ZOOM but that is still under discussion. Maybe we should reconsider the

meeting format, time of the week, various locations, etc. If you have thoughts on the subject or know of a restaurant that would work, let Chet know (butcher43.cb@gmail.com)

8. Presentation – Our member Zoe Carmichael is at McPherson College in Kansas and made a ZOOM presentation from there about the college and its Auto Restoration program. This is the only Bachelor's degree in Auto Restoration in the country. She had photos and live video from some of the facilities and the variety of cars used in the program. Very interesting, Zoe.

Footnotes: I forgot to mention two items during the meeting:

1. The subject is emails to our members to sell a car. Our policy has been for many years to share members' cars for sale via email (and in the meetings) as they come up. The issue is what to do with non-members who want to sell a car. We do not want to become the go-to place for anyone to sell a car and fill up members' email in-boxes.

For non-members cars, our policy has been to mention it at a meeting and put it in the minutes so all members are aware of it. So - no individual emails for non-members.

Is that still acceptable to our members?

2. Mike Hess has a car for sale for a friend with many photos in an email. It is a 1954 Olds 88 4 door sedan that appears to be all original but has been driven within the last 3 years. Might be a good project for someone. Mike or I can send you more photos and info if interested.

5. One More Time, Please Renew your Membership!

By Ken Powell, Treasurer

It's that time of year again - Time to renew our memberships in preparation for a whole new year of AACA activities. We look forward to an engaging year as we continue to better manage the challenges of COVID which has put quite a damper on things for the last two years. Personally, I am optimistic that we will continue to come up with better and better ways to safely resume getting together in a wider array of Shows, Tours, Meetings and Picnics.

Please complete and return the attached renewal form to Ken Powell at the address listed on the bottom of the form. (*This is a change!*) The renewal form will also be part of the next two Chapter Newsletters from Denny. I realize that these forms seem repetitive with their information requests, but I do update our records from these. Spouses and Addresses don't change that often but phone numbers and email addresses do. Your help in maintaining our records is appreciated. Renewals are requested by December 31st.

Dues remain the same at \$45 National, \$15 NC Region and \$10 Chapter. You can write one check for all three (\$70, payable to Triangle Chapter AACA) and I will pay National and Region on your behalf. If you wish to pay your National dues directly, send me a check for \$25 and I will take care of the Region and Chapter dues.

I look forward to seeing you at Triangle events throughout 2022.

Ken Powell

7. Zoe's Presentation on McPherson College

Zoe Carmichael is attending McPherson College pursuing a bachelor's degree in automotive engineering. To a car person it sure looks like she is having a good time learning the skills of engine rebuilding. She presented an overview of the student activities and the school at our November meeting. If you missed the meeting, you could see her presentation at:

<http://www.ncregionaaca.com/triangle/images/PDF/mcpherson.pdf>.

8. Triangle Chapter Holiday Party

By Denny Oestreich and Jean Soehnlein
Denny's Story

We had a very successful Holiday party after having cancelled this event last year due to Covid safety measures. At roll call it was determined we had 34 attending our annual Christmas Party. Many thanks to Bob Safrit for hosting the event in the very seasonally decorated Stag Club. Jean Soehnlein and the committee organized the event and planned hors d'oeuvres and before dinner drinks during the social hour. They also ordered a great meal catered from Piper's Tavern on Falls of Neuse. The choices on the buffet were Chicken Cordon Bleu and Salmon, potatoes, and green beans. There were choices of five different cakes for dessert. Riley Reiner served as the rescue squad to recover guests who were lost and obtain tea refills.

The buffet table with seconds.

Formal Pink Elephant Guardianship Transfer

Trivia Question: Manufacturer most owned by Triangle

After dinner Kimberly Hess made a presentation on her quilting hobby. Kimberly does gift quilts, competitive quilting, and consignment quilting. She presented many pieces she had completed to demonstrate color combinations and design. Kimberly has a talent for fabric color selection and coordination.

Every year we participate in a game called "Dirty Santa". Each couple brings a wrapped gift that has a value of at least \$10 and must be edible! I create automobile trivia questions which are answered and discussed as names are drawn, gifts selected, gifts unwrapped, or gifts stolen. Each member is called upon to answer a trivia question and then go to the gift table to pick one of the wrapped gifts and unwrap it at their table for all to see. The next member can then either steal a gift or go to the table and choose a new gift. This year the vote was only two steals.

For many years we have had a "Pink Elephant" disguised as a gift. The member who discovers they are the recipient of the Pink Elephant has the duty to return it next year, wrapped in a mysterious way again. In addition, those attending bring an unwrapped toy for Toys for Tots! The toys will be taken to the Marines Toys for Tots drive in Wake Forest.

Jean's Notes

I really enjoyed seeing everyone this past Sunday at our annual Holiday event. It has been a long time since we have had a fun time together.

I want to thank Les Tryon for purchasing the York Peppermint Patties for our table favors. Les also purchased our desert – Cakes!! She and I also pulled together items that we have painted over the years to decorate the tables. When I arrived at the Stag Club Sunday night, I found that the tables had been beautifully decorated. Our "stuff" was left in my car except for a "fake" poinsettia I placed on the bar. The Stag Club caretakers did a wonderful job. Marilee Sanderson came early and the Reiners to help in any

way they could. I directed them to set up the place settings. We also got the buffet tables in place and the gift table (can't forget that!). Kimberly Hess helped with the set up after getting her beautiful quilt hung up over the fireplace. Others helped too and I want to thank all of you. I can always depend on Triangle Chapter to step in and help when needed. Thanks, Riley, for taking the Toys for Tots to the Marine Corps.

Another Thank You goes to Bob Safrit for reserving the Stag Club for us last January. Please repeat this early in January 2022!! We must reserve in January, or we cannot hold our event there in December 2022.

Piper's Tavern buffet was wonderful. My favorite was the grilled salmon!! I learned something from the owner though. I mentioned to him that I was making it known where I live (Carolina Arbors) that he would be a good choice. He requested that we not share the cost information. I don't know how much longer he can offer great prices due to rising costs, but we certainly appreciate it. But do pass the word about how great their food is!!

Denny did a great job creating the Trivia questions!! All your questions were challenging but our group came up with the answers!! Great gifts too! I appreciate the Godiva Chocolates plus a painted ornament that I got. Lots of wine, hot chocolate, snacks, etc., etc. There were two trivets that got stolen. They were made of several different wood pieces. I expect our former President (Jim Gill) made them. Just a guess. I don't recall who "won" the Pink Elephant. Don't forget to take good care of it and bring it back next year!!

Again, thank you so much for helping set up and clean up!! Couldn't do it without you. Have a wonderful and safe holiday.

Jean Soehnlein

8. Reiner Family Model T Wins 1st Junior

By Riley Reiner

A Short Break from the Model A updates.

My Grandson, Colin, and I have taken a short break from working on the Model A to do some upgrades on our 1925 Model T Fordor. Bob Miller restored the car more than thirty years ago and used it for many tours and club functions. In 2019, I took the car to Hershey to transport Sandra from the parking area to the show field. The car was awarded a second junior and I was very pleased. I requested a review of the areas of point deductions.

Flash forward to 2021, Colin and I looked over the sheet and decided to make as many upgrades as was reasonable. Colin worked hard to do some wheel and undercarriage work while I handled some upper body work. The project took several weeks to complete, and we did not finish the list.

At the 2021 Hershey meet, the 1925 received a first junior to my surprise and enjoyment. I never thought I would ever get a first junior at Hershey. The attached picture shows where Colin has mounted the First Junior Badge on the car since he worked hard to help the car earn it.

9. Chick Fil-A Display November 12, 2021

As told by Jack Agayoff

Thanks to Jack for organizing the Triangle Chapter Cruise-in at the Chick Fil-A on Capital Boulevard. This is the 15th time we have had this event. Last year's event was cancelled due to the Covid epidemic shutdown. In 2019 we had a rainy day, so the event was somewhat shortened and adventurous as we drove our antique cars home hoping the windshield wipers worked. This year the display had sunshine but cool weather. Jack indicated there were 16 vehicles including 9 Triangle cars and 7 nonmember cars.

The Chick Fil-A has been torn down and rebuilt over the past spring. Chick Fil-A changes included more lanes for customer drive-thru. The restaurant was closed for inside seating due to Covid precautions. Drive-thru is now 100% of their business, so they requested the club cars use parking further away to facilitate the drive thru traffic. Gauging by the waiting line of cars waiting to order they are doing a good business.

The oldest vehicle displayed was Jim Gill's 1925 Model T truck. We understand Jim practiced unloading and reloading the Model T on the way to the show. The longest vehicle of the day was Keith Wasserman's 1960 Oldsmobile. Keith is a friend of the Triangle Chapter who often participates in our shows and events with various vehicles.

The benefits of the day were sunshine, good conversation, and Chick Fil-A provided a coupon for a sandwich this year. Check out Les Tryon's pictures below.

10. Special Western Nationals Phoenix, AZ Nov 14-17

By Denny Oestreich

In August this year I was looking for some travel adventure when I noticed that AACA had planned a Special National Judged Show in Phoenix, AZ. I have a brother who lives in Phoenix we have friends who winter in Phoenix, and the Covid restrictions were lifting somewhat, so I decided to sign up to Judge at the show and combine the trip with visiting. I wondered what type cars I would see at show out West. I requested to judge Tri-5 (55-57) Chevrolets and maybe some other Chevrolets. I took the Apprentice Judging class in 2019 and judged interiors for foreign sports car class at Concord this spring. I have also taken many judging classes and several Continuing Judges Education (CJE) classes. So, I am gaining judging experience.

I wondered if there would be anyone else from North Carolina at the Phoenix event. Leaving from Raleigh I met Mike Peterson in the waiting room at the RDU Airport. Mike is an AACA Special Awards Committee Member who was doing some special judging at the event. Then at the event I soon recognized Steve Eason's 1957 Corvette DPC Class, in the hotel parking lot. Steve, who is from Sanford, attends many of the AACA events and enjoys driving to them, even at great distances. There are updates on Steve's 5000 mile adventure on the NC Region Website at: <https://www.facebook.com/groups/354295168008068/>. Other North Carolinians at the Phoenix event were Eric Marsh, National Awards Committee Member who drove his 1993 Ford Ranger, HPOF class, from China Grove, NC. I also met David Bowman of the Hornets Nest Region, Chair of the HPOF Committee. With five members from North Carolina, we had a good representation.

The host hotel for the event was the Hilton Garden Inn in Tempe, AZ. They provided rooms for many of the AACA guests, and their parking lot was also the show field. The show vehicles were parked interspersed with the Hotel Guest vehicles. This was a bit confusing.

Typical of the of AACA judged events the first day (Friday) activities included Registration of Show vehicles, a Judging School taught by Dain King, and a round table discussion. Round table topics included how to get more youth participation, requests for tours to be separated by a week or two, and what to do with modified cars that want to participate in AACA events.

AACA Judging activities were on the second day. There was no traditional Judges breakfast or banquet because catering was not allowed at the Hotel and for Covid restrictions. The first activity on the agenda for was the judges meeting and Judging Point recognitions. As a surprise I was awarded a plaque and pin for having 10 judging credits. The five person judging teams were then assigned. There were no 55-57 Chevrolet Class entries, so I was assigned to a team judging 9 other vehicles. There were only 55 vehicles entered in the entire show with a wide variety of classes entered. After the judges meeting the our team determined I had the least credits and experience and I looked like I could get up and down, therefore I was assigned to be the Chassis Judge.

Before actual judging we attended various Continuing Judges Education (CJE) classes. I attended the CJE class for interiors. The interior CJE material had been prepared by Mike Peterson. Mike led the CJE on Engines.

Next, our judging team scouted the Show field and identified the vehicles we were to judge. The first vehicle was a 1970 Dodge Challenger going for a Repeat Preservation. This was easy to judge, just to look to see it has not fallen below 350 points. Other vehicles we judged were an early production 1954 Corvette, a 1975 Chevrolet Impala, a 1960 Checker, a 1989 Mercedes, a 1956 Thunderbird, a 1965 Corvette, a 1960 Rolls Royce, and a 1954 Buick Skylark. What a variety. Did you know that the valve stems must be of the period and must match? It took about 2 hours to judge the 9 vehicles we were assigned. The owners were anxious to help us with anything we questioned or looked at too long. Our judging team worked well together, and the judging was enjoyable.

Below are pictures I took of some of the vehicles entered in the show. I was certainly surprised that there were no Model Ts, Model As, or Tri 5 Chevys. Now I can say I have judged a Rolls Royce.
